

Regulation D (Reg D) - Frequently Asked Questions (FAQs)

Q: What is Reg D?

A: Reg D is a Federal regulation that limits the number of certain types of withdrawals from non-transactional accounts, such as a Savings or Money Market Account, to six (6) per month (per account).

Q: What is the purpose of Reg D?

A: The purpose of Reg D is to regulate the level of reserves a financial institution maintains. The required reserve amount for each financial institution is based on the balances it has in its transactional accounts, such as Checking Accounts.

Q: Are other financial institutions required to comply with Reg D?

A: Yes. All financial institutions are required to take action to prevent excessive withdrawals from non-transactional accounts. At First American, we are monitoring the accounts. This action may require us to convert the Savings or Money Market Account to a transactional account, if the member consistently exceeds the withdrawal limit.

Q: Will I see any additional fees in connection with Reg D?

A: First American will assess a \$15.00 per item fee at the end of each month in which a Savings or Money Market Account has over six (6) restricted transactions.

Q: What types of transactions are counted toward the 6 (six) transfers permitted each month?

- Transfers made using Online Banking or Mobile Banking
- Transfers made using Phone Banking
- Overdraft transfers (made automatically to cover insufficient funds in other accounts)
- Transfers made by a Member Service Representative on your behalf
